

# Why I Love Foster City

Imagine yourself in a beautiful city, with wonderful clear and blue lagoons, lots of stores and shopping centers, gorgeous neighborhoods and houses for shelter. Also lots of fun grassy parks where you can play outside and enjoy the breeze and play with your dog, cat, or anyone you know, and fields with courts such as tennis, soccer, basketball, and golf where you can play and enjoy. Don't forget the bay either, where you can relax at its small beaches or also enjoy the wind by kitesurfing. Well that's where I live, the lovely city of Foster City, California.

It all started when I moved here at the age of 6 months. I didn't really remember anything from the time until I got a little older. I was around 3 years old when I went to a preschool called Odyssey Preschool. It was a wonderful school where I learned many things and made my first friends. Later when I grew a little older I went to the lovely school of Audubon Elementary School. I learned many things and got a lot smarter about the world, science, and math! I also made a lot of friends there and it was so fun! Every day I would have a blast learning at school even if the work was hard. I am very excited to go to Bowditch next year!

At least once a month I go on my fathers inflatable boat to boat in the lagoon and it is very very fun. I get to enjoy the cool water, the breeze, and I get to see everyone playing near the parks on the side of the lagoon. I really enjoy it and it is a nice way to calm down or relax if you are tired. It is also very beautiful too which just pulls the whole experience together.

Another thing I really like is playing near the Metro tower courtyard when my parents are shopping at either the Cvs store, Safeway, Five guys, etc. It has many trees and is a very good place to play with your friends or just chill out there. I personally like to play tag or hide and seek with my brother there, we would also scooter/bike around in laps for fun or race to see who is the fastest. It is also a very nice place to go if you want to enjoy nature and watch the birds hop around. Every now and then I would go shopping there too, I would buy groceries at Safeway and get a little snack at Five Guys or Starbucks. Overall it is just a very nice place to be whenever you just want a little bit of fun or just hang out in nature.

Too add on to that I also love hanging out around the Rec Center area to either shoot basketball hoops near the skate park, play tag on the hill, watch the wonderful shows near the amphitheatre, hang out and

watch the water near the gazebo, or take a nice little walk to give myself a little break. It is a very nice place to go if you want to have fun or enjoy the wonderful beauty of nature. Something related to that, I also love hanging out at parks to scooter there or swing. Some of my most favorite parks to go to are Catamaran, Gull park, Ketch, Marlin, and Boothbay! They are just so fun to play on the structures and do sports!

One of the most favorite things I do is go on 30 minutes - 2 hour bike rides. They are a good way to have fun or take a break from the screen if you want. I love doing little laps on the bike and going to other places. I really enjoy biking on the bay, the lagoon, near the Rec Center, and my most favorite of all, taking a big lap around the main part of the lagoon. My opinion on it is that it is a very good thing to do here because there are many places to explore and have fun in. It is one of my most favorite things to do!!!

Some things the city can improve on is that there could be a few more public trash cans to help the environment and stop littering causing pollution in the world. Also, more boat docks for people to dock their boat if they wanted to check something out. Lastly, maybe they can add a little bit more cultural food restaurants like Chinese, Indian,

Mexican, Japanese, etc. But there really aren't more things I can think about that the city can improve on and either way I still love it!

In conclusion, Foster City is the best place to be if you are tired of packed areas or want a little bit of space. It has many places to explore, many things to do, and endless possibilities of activities!! Even though there are things to improve on in the growth of the city, it is still an awesome place to go to!!! In the end, I just love Foster City!!!
